The Book of Ruth is the shortest book in the Old Testament, and may be one of the shortest books in the Bible. To be sure, the writer was not a “toy” writer who lacks a plotline or narrative, and this story is not a “traveler’s” story. He was a “follower” of Yahweh. Yet, what is this story about? Is it just a story, or something deeper, and more significant? Let’s find out... Many people think this story is an allegory and a romance. Is it? The story is amazing. It is a story of a woman, Ruth, who married into a clan of people who were considered “unclean” because they were her people (kind of a reverse-kinship like the Song of Songs). They were like “outsiders” to Ruth’s people and belonged to a different lineage/clan/people. But, Ruth – for God’s sake – she obeyed, she picked up her life, and she married into this clan. She literally married into a clan she did not know, in a land she had never been to, where she had no friends and knew no one. She is set up and caught in a terrible trap. She is the victim of her husband’s betrayal. He was a so-called “righteous” man. He was so righteous that he was a scumbag. He married a foreign woman and now had a whole new side of life. He started working with foreigners, and all of a sudden had no place to live, no friends, no family, no clan. So, he bought a plot of land in a different place, which was considered unclean, and he set up his own camp there. Her family thinks she is “lost”. She went to her mother in law (who was also a scumbag, but she was a victim in that she had to follow the culturally mandated slavery rule which required the woman to submit to her husband) and said: “Where are you? Where is your husband? We have no one who can look after me, and who can help me get along with my new clan”. She explained that “he” has cheated on her; so, he is now divorced and with a new wife. And, she wanted him to get her into his
